Summary

Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinal!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a “length-limited” conversation!

Experience

Period	Role / Highlights
2013-12-01 ~ 2014-12-01	CEO/President · Pied Piper (Palo Alto, CA) Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression. • Build an algorithm for artist to detect if their music was violating copy right infringement laws • Successfully won Techcrunch Disrupt • Optimized an algorithm that holds the current world record for Weisman Scores

Education

University of Oklahoma — Bachelor in Information Technology (2011-06-01 ~ 2014-01-01, GPA 4.0)

Skills

Web Development (Master): HTML, CSS, Javascript

Compression (Master): Mpeg, MP4, GIF

Projects

Miss Direction — A mapping engine that misguides you
tags: GoogleMaps, Chrome Extension, Javascript

Languages

English (Native speaker)
